

## The Rogers Group donates Rs 2 million towards the National COVID-19 Solidarity Fund

As the world faces the unprecedented impact of the COVID-19 pandemic, the Rogers Group stands with the country to help mitigate the spread of the Coronavirus and ease the related economic fallouts. In response to appeals by the Mauritian Government, the Rogers Group and its subsidiaries donate a Rs 2 million to the National COVID-19 Solidarity Fund to support Coronavirus relief efforts.

*“The Rogers Group is deeply concerned about the scale of the COVID-19 outbreak and its enormous public health, social and economic impact. Exemplary solidarity is essential during such moments,”* Belinda Vacher, Chief Projects and Sustainability Executive of Rogers said.

The National COVID-19 Solidarity Fund was established by Government to support the population and help the community at large to deal with the impact of the pandemic. To encourage public and enterprises to contribute to the Fund, Government will allow them to deduct the amount donated/contributed from their taxable income.

This contribution by the Rogers Group is in line with its Corporate Social Responsibility efforts that have been scaled up during the last few weeks, where additional resources have been budgeted to support economic and social causes and help alleviate the sufferings of the most exposed people and communities in Mauritius. Guided by its core values – agility, leadership and excellence – the Rogers Group is proud to align its resources to address the challenges related to the COVID-19 crisis.
